

Half the people suffering from the flesh-eating disease Buruli ulcer are children like these in DR Congo. Your generous gifts give hope through testing, treatment and care. Credit: Tom Bradley.

## 2022 Annual Report

American Leprosy Missions is dedicated to breaking barriers to health and renewing hope for people suffering from the pain and stigma of neglected tropical diseases like leprosy.

# Neglected People: Neglected Diseases

People like Rajesh Risodev in Nepal rely on the expertise of our partner hospitals to recognize and treat leprosy. Thank you for supporting our partners and breaking barriers to health! Credit: Tom Bradley.

More than one billion people around the globe suffer from neglected tropical diseases (NTDs) like leprosy. Not only do they experience crippling disabilities and physical pain, they are often stigmatized, leaving them socially isolated and rejected.

## Breaking Barriers to Health and Renewing Hope

As Christ followers, we believe every person deserves dignity, hope and access to healing. So, with your faithful support, we break down barriers that prevent afflicted people from living whole, fulfilling lives. We take early action, disrupting the devastating and lifelong effects of NTDs. We bring a renewed sense of hope to people suffering from NTDs by elevating awareness, funding research, providing treatment, strengthening health systems, sending medical supplies, and much more.

## Mission

American Leprosy Missions exists to serve as a channel of Christ's love to persons affected by leprosy and related diseases, helping them to be healed in body and spirit and restored to lives of dignity and hope.

# Our Impact

This year, with your generous gifts, we supported projects, programs and partners in more than 25 countries. This map shows the broad reach of our expertise and your partnership as we seek to break barriers and restore hope for people affected by NTDs.

## Your Gifts in Action

**Medication and treatment provided:**

**11,479**

Your support made it possible for suffering people to receive treatment and medicine for NTDs and other health conditions.

**People screened for NTDs:**

**53,628**

**NTD cases identified:**

**9,823**

**Footwear & prostheses manufactured:**

**3,410**

**Patient self-care training:**

**3,309**

Self-care includes steps like washing, limb elevation, and other practices that help people affected by leprosy and other NTDs care for themselves. Training empowers people and saves expensive trips to a clinic.

**Health workers trained:**

**5,759**

From Liberia to Nepal, your gifts train health workers to recognize NTDs, use new tools and help suffering people access the care they so desperately need.

**Medicines and Medical Supplies  
sent to the Philippines:**

**\$2,487,209**

**Students and teachers educated  
about NTDs and WASH:**

**10,022**

Your generous gifts reached schools in Nepal with life-changing information about preventing disease and the importance of clean water, sanitation and hygiene.

**Surgeries:**

**131**

People affected by leprosy often need surgeries to treat clawed hands, ulcers, or even to amputate a damaged limb. With your support, people affected can access these resources at our partner hospitals for little-to-no cost.

# Fiscal Year 2022 Finances and Program Support

## Revenue
